LAMIA ABDULAZIZ ALROWAISHED

UX/UI Product Designer | UX Research

Riyadh, Saudi Arabia | lamiaaziz90@gmail.com | lamiadesigner.com | LinkedIn

PROFESSIONAL SUMMARY

Bilingual UX/UI Product Designer with a strong UX research focus and 5+ years of experience across digital products, web experiences, spatial journeys, visual design, and client-facing roles. Works from stakeholder discovery, requirements synthesis, journey mapping, and information architecture through Arabic-first RTL and English interface design, design systems, prototyping, and developer handoff. Connects user needs, business goals, and delivery constraints to create clear, practical experiences.

CORE EXPERTISE

Stakeholder and client discovery | Requirements gathering and synthesis | Research synthesis and market review | User journeys and workflow analysis | Information architecture | RTL/LTR product design | Wireframing and prototyping | Design systems and high-fidelity UI | Developer handoff | Cross-functional communication

PROFESSIONAL EXPERIENCE

Techno Farm Est. | Freelance UX/UI and Web Designer

Aug 2026 - Present

- Conducted stakeholder discovery to clarify business goals, target audiences, product structure, and bilingual content needs.
- Synthesized requirements into a clear information architecture and a structured 40+ product catalog.
- Created Arabic and English content and designed the interface around the needs of retail buyers.
- Directed an AI-assisted build and published the completed website on the client's domain.

SDM | Freelance UX/UI Designer

Jul 2026 - Sep 2026

- Reviewed stakeholder requirements, existing workflows, and constraints for a confidential digital-health platform.
- Mapped connected patient and doctor journeys across appointment booking, visit tracking, medical reports, and AI-assisted support.
- Translated findings into native RTL task flows, information architecture, a design system, and approved high-fidelity interfaces.
- Synthesized client and team feedback through iteration, then prepared specifications and developer handoff.

Dar Al Riyadh | Experience Designer - Wayfinding and Environmental Design

Sep 2025 - Sep 28, 2026

- Analyzed architectural plans, circulation paths, visitor journeys, and decision points across a 24-floor mixed-use development.
- Gathered and reconciled spatial requirements from multidisciplinary stakeholders.
- Synthesized findings into bilingual information hierarchy, zoning, and wayfinding logic for varied visitor needs.
- Communicated decisions through location plans, signage families, iconography, and color systems.

Winclex | Account Development Officer

Dec 2022 - Sep 2025

- Led client and stakeholder conversations to understand needs, business goals, priorities, and constraints.
- Documented and synthesized requirements into tailored proposals, service recommendations, and follow-up actions.
- Partnered with sales and marketing teams to align client expectations with feasible delivery.
- Built Excel tracking dashboards and used client feedback to improve service fit and internal follow-up.

Casapiu | Marketing Graphic Designer

Jun 2021 - Dec 2022

- Designed website interfaces and digital campaigns across client and internal needs.
- Improved visual hierarchy and content clarity across digital and print materials.
- Created brand identity assets and bilingual marketing communications in collaboration with marketing teams.
